An Innovative Career Placement Agency

INTAKE TEAM: (PHONE SCREENER)

This team plays a critical role in determining which appropriate services are offered to our clients. Interns assist by completing phone screening and scheduling initial in office appointments.

INTAKE (EVAL) + JOB APPS TEAMS

The role of these teams are vital. An initial evaluation and case profile is developed and a case account number is assigned by our intake interns. Our job apps team meet clients either online or in office to assist in developing resumes and completing job applications for open positions.

JOB RECRUITMENT + SOCIAL MEDIA TEAMS

Statisticians and public relations interns report the progress of our #100jobs campaign throughout our social media platforms. Interns also invite keynote speakers to attend our monthly luncheons.

TEAM LEAD CHECKLIST FOR TRAINING INTERNS

Develop skills for civic engagement

Develop project management skills for career development

Develop skills in effective public speaking

Develop skills in behavioral management

Showing empathy to others, being more open minded and caring

Developing greater level of self confidence and maturity
